

MOHAMED FARHAN FERROZ

INDUSTRIAL ENGINEER

Doha, Qatar | farhanferoz1010@gmail.com | +974 3340 7016 | www.linkedin.com/in/moferoz

SUMMARY

Industrial Engineering graduate from Cal Poly San Luis Obispo with hands-on experience in supply chain optimization, inventory automation, and data analytics. Proficient in tools like Alteryx, Excel, and Python to drive process improvements and cost savings. Passionate about applying analytical thinking and lean principles to solve complex operational challenges.

TECHNICAL SKILLS

Alteryx Designer	Minitab	SAP ERP (S/4 Hana)
AnyLogic Simulation	Python (NumPy, Pandas)	SQL
MS Excel & Project	SolidWorks (Autodesk)	Value Stream Mapping

PROJECTS & EXPERIENCE

Forecasting Workflow Automation, International Electronic Components Mar 2025 - Jun 2025

- Designed a dynamic, automated Alteryx workflow using ARIMA modeling to forecast short-term inventory needs across multiple warehouse locations.
- Integrated inventory, sales, and planning parameters to generate reorder quantities and purchase order suggestions.
- Delivered scalable solution with potential for real-time integration with Microsoft Dynamics using Alteryx server and analytic app deployment.

Inventory Management System, Pacific Coast Well Drilling Sep 2024 - Jun 2025

- Designed and implemented a barcode-enabled IMS using Sortly, improving tool tracking and reducing job prep times by 4 hours per project.
- Collaborated in cross-functional roles: served as Documentation Lead and Research Analyst, ensuring all client deliverables, reports, and benchmarks were met on schedule.
- Developed training documentation and rollout strategy; conducted stakeholder meetings and on-site solution demonstrations.
- Conducted cost-benefit analysis estimating \$370,000 annual savings through a 56% reduction in inventory-related costs.

Head Administrator, Rifqa Education Center Sep 2022 - June 2025

- Oversaw daily administrative operations including scheduling, student enrollment, and tutor coordination, ensuring smooth communication between staff, students, and parents.
- Implemented digital scheduling tools and standardized procedures (SOPs), reducing weekly planning time by 30% and streamlining staff onboarding.

EDUCATION

Bachelor of Science in Industrial Engineering Jun 2025

California Polytechnic State University, San Luis Obispo, United States

- Courses: Operations Research, Supply Chain Management, Data Analytics, Lean Manufacturing, Simulation, Facilities Layout Design, Service Engineering, Quality Engineering, Human Ergonomics
- Major GPA: 3.6/4.0

ADDITIONAL INFORMATION

- Certifications:** Designer Core Certification (Alteryx) - 2025, SAP S/4 Hana Basic Training - 2025
- Awards:**
 - President's Honors List, Dean's List – Cal Poly, 2025
 - 3rd Place – Qatar National Music Competition (Classical Piano), 2018
